

TECHNICAL DATASHEET

SPECIFICATIONS

Reference	16108 - 16105 - 16106
Description	Earth rod \varnothing 15 mm
Material	304L stainless steel
Ref. 16108	L. = 1.0 m / W. = 1.35 kg / \varnothing = 15 mm
Ref. 16105	L. = 1.5 m / W. = 2.02 kg / \varnothing = 15 mm
Ref. 16106	L. = 2.0 m / W. = 2.70 kg / \varnothing = 15 mm

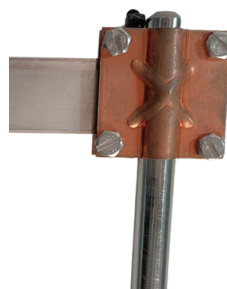

USING

Principle	This product can be used as a vertical electrode in a lightning earthing system.
Additional accessories	Coupling sleeve - Ref. 16113 <i>To be used to connect two earth rods</i> 
	Hammer tip - Ref. 16133 <i>To be used to hammer earth rods without damages</i> 

CONNECTION

Ref. 16127
Stainless steel fixing ring
For flat conductors

Ref. 16125
Copper connecting collar
For flat conductors

Ref. 16121
Brass fixing ring
For round conductors

COMPLIANCE

IEC 62561-2 Components for lightning protection systems (CSPF) - Part 2: Requirements for conductors and grounding electrodes
