

TECHNICAL DATASHEET

SPECIFICATIONS

Reference	16109
Description	Vertical copper-bonded earth rod ø 14,2 mm
Material	Copper-bonded steel
Copper plating	254 microns
Ref. 16109	L = 2.0 m / Weight = 2.55 kg / ø = 14.2 mm

USING

Principle	This product can be used as a vertical and buried electrode in a lightning earthing system.
Additional accessories	Coupling sleeve - Ref. 16114 To connect 2 earth rods

CONNECTION

Ref. 16114 (non included)

Brass coupler to be used to connect two earth rods in copper bonded steel

COMPLIANCE

IEC 62561-2	Components for lightning protection systems (CSPF) - Part 2: Requirements for conductors and grounding electrodes
